**<Gentle reminder before the close of net>**

Cruisers use Channel 68 as a hailing channel. Once you make contact, please move to another open, legal channel. Use low power whenever possible. Peake's monitors CH 69, Powerboats 72, and Crews Inn 77. Avoid those channels unless you have business with these firms. Use "Alpha" channels when possible.

**Is there anything that needs mention before I close the Net?**

The Net is over. The frequency is clear. This is (Boat Name) OUT.
